aust0072@algonquinlive.com | 5145820401

Education

Algonquin College

Computer engineering technology (Computing Science)

Sep 2021 – Apr 2024

Frontend Developer Bootcamp

Frontend Simplified

Sep 2022 – Dec 2022

Experience

Frontend Developer Support

Frontend Simplified

Dec 2022 - Current

- Supported students using HTML, CSS, Flexbox, JavaScript and React best practises
- Utilized debugging best practises using Google Chrome inspect element tooling
- Simplified difficult programming concepts including responsive website development, CSS layout, Promises and API requests

Projects

Library (Still developing) | [Website](#) | [GitHub](#)

- Creating a book website using html, css, JavaScript and react.

Evergreen Bookstore (Completed but in the deployment stage) | [GitHub](#)

- Created a robust Java Web application using Hibernate, html, css and javaScript.
- I was able to learn and apply Java in this project ranging from Servlets, jsp, JPA.
